EDUCATION

Degree	Specialization	Institute	Year	Pct
B.Tech	*Information Technology*	Andhra Loyola Institute of Engineering and Technology	2022-2026	70
HSC BIEAP	*Physics, Chemistry, & Mathematics*	Junior oxford College	2022	62
SSC	-	Z.P. High School	2020	90

INTERNSHIPS

- **Artifical intelligence Intern** *[Wisen IT Solutions]* *Dec-Aprl 2026*
  - Developed and experimented with Artificial Intelligence and Machine Learning models using Python, working with structured and unstructured datasets for preprocessing and feature engineering.
  - Applied Natural Language Processing (NLP) techniques for text analysis and data interpretation while supporting the development of AI-driven prototypes and proof-of-concept solutions.
  - Collaborated with mentors and team members to evaluate model performance, optimize algorithms, and improve overall system accuracy.
- **Data Science Intern** *[CODTECH IT Solutions]* *May-Aug 2025*
  - Developed a Churn Prediction & Retention Optimization model for subscription-based services.
  - Conducted data cleaning, preprocessing, and exploratory data analysis on customer datasets.
  - Implemented classification algorithms to identify customers likely to churn.
  - Generated analytical insights to support targeted customer retention strategies.

PROJECTS

- **Intelligent Android Malware Detection using LLMs** *Dec-Apr 2026*
  - Built an Android malware detection system using **11K+ APK samples** and DistilBERT for malware classification.
  - **Extracted 600+ security features** from APKs using APKTool and Androguard for semantic analysis.
  - Fine-tuned DistilBERT and compared performance with 4 ML models: Random Forest,SVM,Logistic Regression, and Naive Bayes.
- **Restaurant Review Sentiment Analysis using NLP**
  - classified **1,200 restaurant reviews** as positive or negative using NLP and machine learning.
  - Applied text preprocessing techniques, including tokenization, stop-word removal, and normalization.
  - Used **TF-IDF vectorization** and achieved **85% classification accuracy** while analyzing customer sentiment trends.

TECHNICAL SKILLS

- **Languages:** Python, MySQL, R
- **Data Science & ML:** Pandas, NumPy, Scikit-Learn, TensorFlow, Statistics, EDA, Model Evaluation
- **AI & NLP:** Large Language Models (LLMs), Generative AI, LangChain, RAG, NLP, Transformers, Hugging Face
- **Data Visualization:** Power BI, Matplotlib, Seaborn
- **Tools & Platforms:** Git, Github, Jupyter Notebook, VS code
- **Concepts:** Data cleaning, Feature Engineering, Machine Learning pipelines, Data Processing

CERTIFICATIONS

- **Python and Pandas for Data Engineering** | Pragmatic AI Labs (edX)
- **Data Science: Machine Learning** | HarvardX (edX)
- **Python Programming- Comprehensive Training** | Infosys Springboard

LEADERSHIP & ACTIVITIES

- **Campus Ambassador** | *Indian Institute of Technology (IIT) Delhi* *Dec – Feb 2026*
  - Represented IIT Delhi initiatives and promoted innovation, entrepreneurship, and technology-focused programs.
  - Coordinated student participation in workshops, ideathons, and technical activities.
